Toolbox Topic:
Parking Lot Safety

No Accidents!

As you park in any parking lot be aware of your surroundings. Take note of who is around you and what is visible in your vehicle. Take precautions, don't be the person that opens the truck in the same parking lot or garage you're parking in, putting your items in the trunk. That just helps thief see what you got and where you put the items.

Success is No Accident!

When thinking of parking lots, one normally does not think of potential hazards associated with it. Parking lots are designed for vehicles and not pedestrians. Therefore, hazards are everywhere

Both pedestrians and drivers should view parking lots as if they were streets and intersections. After all, they do have set speed limits and have the same traffic markings to indicate traffic patterns. Below are safety tips for both pedestrian and drivers to follow when using parking lots.

Pedestrians Safety

- **Be cautious and aware** of your surroundings when walking in a parking lot. Avoid using a cell phone as you walk through the parking lot.
- **Do not assume that drivers can see you** when you can see them. In many cases, the pedestrian sees and hears a vehicle before a driver can see the pedestrian due to blind spots in vehicles.
- **Treat the parking lot like a street.** Look both ways before crossing, use crosswalks, and always use sidewalks whenever possible.
- **Walk down the parking lots aisles** and not in-between vehicles whenever possible.
- **Try to avoid areas where it would be hard for a driver to see you**, for instance in loading dock areas. Try to walk in groups when in a parking lot, it makes it easier for driver to see.
- **In bad weather** like snow, wear proper footwear to provide adequate traction to avoid slipping and falling.

Driver Safety SLOW DOWN

- The **speed limit is 10 mph** in the parking lots. Any faster speeds may result in a fatal injury to a pedestrian.
- **Reduce speeds** in bad weather. In wet weather, vehicle have a higher chance of skidding.
- **Use your turn signals**
- **Drive in the right direction**
- **Park Courteously** be aware of the length of your vehicle

Success is No Accident!
